

Ultraclear Erasable Writing Lamination - TAG Digital®

TECHNICAL DATA SHEET

Description:

The **Ultraclear Erasable Writing Lamination - TAG Digital®** designed to be used as an erasable writing board with erasable markers such as Velleda, in class rooms, meeting rooms...

Characteristics:

The **Ultraclear Erasable Writing Lamination - TAG Digital®** is composed of an ultraclear 50μ PET film on which is applied a solvent permanent transparent adhesive protected by a 25μ PET Liner. The product is not suitable for printing.

Durability:

The maximum recommended duration of use is 3 years.

Storage:

1 year between 15 and 25°C and 45 to 55% humidity in the original box.

Adhesion:

Adhesive strength 180° (FTM 1): 6 N/25 mm +/- 1N/25 mm

pInitial adhesion (FTM9): 8 N/25 mm +/- 1N/25 mm

Final adhesion after 24 hours.

Adhesion temperature: 15° to 40° C

Temperature of use: -20°C to 60° C

Note:

The information in this data sheet is based on laboratory tests and experience gained in practice. It does not constitute a legal guarantee. A test prior to use must be carried out.

Durability is estimated based on exposure conditions in Central Europe. The actual life of the product depends on substrate preparation, exposure conditions and maintenance of the marking. Outdoor performance degradation can be expected when the films are exposed southward, if applied in areas with high temperatures such as Southern European countries, or in polluted areas.
