

## Polyester Fabric - TAG Digital® - TAG Digital®

### TECHNICAL DATA SHEET

#### Description:

The **Polyester Fabric - TAG Digital®** is a lightweight printable textile designed for applications such as flags, backlit displays and indoor or outdoor advertising.

#### Characteristics:

The **Polyester Fabric - TAG Digital®** has a weight of 130 g/m<sup>2</sup> and is made of 100% polyester. It offers good flexibility and is suitable for applications requiring a lightweight fabric.

#### Printing:

Compatible with solvent and eco-solvent inks. It provides good print quality and reliable performance for standard applications.

#### Technical specifications:

Tear strength: 24-27 N

Tensile strength: 640-837 N

#### Durability:

The maximum recommended duration of use is 1 year.

#### Storage:

1 year when stored between 15 and 25°C and at a relative humidity of 45 to 55% in the original packaging.

#### Références Produit :

<b>Polyester Fabric</b>	<b>1.52 x 50 m</b>	PET-FAB-130-152050

#### Note:

The information in this data sheet is based on laboratory tests and experience gained in practice. It does not constitute a legal guarantee. A test prior to use must be carried out.

Durability is estimated based on exposure conditions in Central Europe. The actual life of the product depends on substrate preparation, exposure conditions and maintenance of the marking. Outdoor performance degradation can be expected when the films are exposed southward, if applied in areas with high temperatures such as Southern European countries, or in polluted areas.
