

220µ Monomeric PVC Floor sticker (R9) - TAG Digital®

TECHNICAL DATA SHEET

Description:

The **220µ Monomeric PVC Floor sticker - TAG Digital®** is an anti-slip film intended for the graphic covering of smooth interior floors and walls (concrete, tiles, stones).

Characteristics:

The **220µ Monomeric PVC Floor sticker - TAG Digital®** is composed of a 220µ white granular Monomer PVC film and on the back a transparent removable adhesive protected by a 140 gr/m² Paper-PE liner.

Printing:

The film can be printed with solvent, eco-solvent, latex and UV inks.

Classification:

The **220µ Monomeric PVC Floor sticker - TAG Digital®** has an anti-slip classification R9.

Note:

The information in this data sheet is based on laboratory tests and experience gained in practice. It does not constitute a legal guarantee. A test prior to use must be carried out.

Durability is estimated based on exposure conditions in Central Europe. The actual life of the product depends on substrate preparation, exposure conditions and maintenance of the marking. Outdoor performance degradation can be expected when the films are exposed southward, if applied in areas with high temperatures such as Southern European countries, or in polluted areas.
