

Rollup Pure PET 175 μ Silver Back – TAG Digital

TECHNICAL DATA SHEET

Description:

175 μ Pure PET roll-up film with silver back.

Characteristics:

175 μ PET film is specially designed for roll-ups. The product consists of a white PET film with a matte coating on the front for excellent color rendition. The reverse side is silver, giving it 100% opacity. PET makes the product highly stable, superflat and anti-curling.

This product is ideal for any use in Pop-up, X-banner, clip banner, displays, rigid posters...

Printing:

The product is printable in solvent, eco-solvent, UV, Latex and screen inks.

Note:

The information in this data sheet is based on laboratory tests and experience gained in practice. It does not constitute a legal guarantee. A test prior to use must be carried out.

Durability is estimated based on exposure conditions in Central Europe. The actual life of the product depends on substrate preparation, exposure conditions and maintenance of the marking. Outdoor performance degradation can be expected when the films are exposed southward, if applied in areas with high temperatures such as Southern European countries, or in polluted areas.
